Re: Water Right No. S2-30409

Dear Mr. Martin:

In response to your request, you are hereby granted an extension to begin construction for the reasons below:

- Due diligence is shown in development of water under this permit. County approval was received to build a boathouse which Thurston County is requiring *prior* to residential construction due to atypical site constraints.
- Delays were encountered because the septic system had to be reconfigured to accommodate construction of the residence and boathouse.

The new deadline to submit your *Construction Notice* is **July 1, 2015**.

Please note that the construction requirement for your water right permit is specific to the construction of your water system. You may file your *Construction Notice* for beginning construction once you begin site preparation and excavation to install water lines and other water system components. You do not need to begin construction of a residence in order to meet this requirement.
